The tree of possibility

The tree of possibility represents our choices for the future.

Our current reality of escalating carbon emissions and a resulting humanitarian and environmental catastrophe.

Or the choice is ours.

Sign up to the 10:10 campaign and work towards a 10% cut in our carbon emissions in 2010.

It's time for ordinary people to step in and show that we're ready to defend our children's futures.

It's now or never for the climate.

Lost Generation by Jonathan Reed

I am part of a lost generation
and I refuse to believe that
I can change the world
I realise this may be a shock but
"Happiness comes from within."
is a lie, and
"Money will make me happy."
So in 30 years I will tell my children
They are not the most important thing in my life
My employer will know that
I have my priorities straight because
work
is more important than
family
I tell you this
Once upon a time
families stayed together
but this will not be true in my era
This is a quick fix society
Experts tell me
30 years from now, I will be celebrating the 10th anniversary of my
divorce
I do not concede that
I will live in a country of my own making
In the future
Environmental destruction will be the norm
No longer can it be said that
My peers and I care about this earth
It will be evident that
My generation is apathetic and lethargic
It is foolish to presume that
There is hope.

And all of this will come true unless we choose to reverse it.
